Cricket

## Profile

As a highly skilled software development engineer, I possess a wealth of experience in web development, specializing in Microsoft Office 365. My expertise includes SharePoint, Power Platform, Dynamics CRM 365, and OneDrive.

In addition to my technical skills, I am a Certified Scrum Master with a deep understanding of Agile methodologies. I am highly adept at managing projects from conception to delivery, working closely with cross-functional teams to ensure that deadlines are met and stakeholders are satisfied.

Throughout my career, I have demonstrated exceptional problem-solving skills and keen attention to detail. With a passion for delivering exceptional results and a solid commitment to customer satisfaction, I am confident I would be a valuable asset to any organization seeking a highly skilled software development engineer or SharePoint consultant.

## Employment History

### Software Engineer, Ingram Micro, Mumbai

APRIL 2022 – PRESENT

- As a software engineer, I have also facilitated small enhancement requests for SharePoint out-of-the-box forms and functionalities.
- I have worked with end-users to understand their requirements and then implemented solutions that met their needs while adhering to industry best practices.
- Through my attention to detail and commitment to delivering high-quality solutions, I have helped organizations improve their SharePoint environments and achieve their business objectives.
- Certified Scrum Master and Facilitated the Scrum process by organizing and leading daily stand-up, sprint planning, sprint review, and retrospective meetings, ensuring that the team was following agile principles and Scrum-specific roles, artifacts, and ceremonies.
- Started working on Dynamics 365's Customer Service Engine module for CRM as an Implementation team member to lead more than 50 country roll-outs with baseline features.

### Software Developer, Ingram Micro, Mumbai

JULY 2021 – MARCH 2022

- Developed SPFx (React) dynamic web parts such as carousels and accordions, as well as custom forms for different departments within SharePoint.
- Integrated Microsoft Power Automate and Power Apps with SharePoint, creating custom forms using Power Apps' canvas app functionality.
- Led the SharePoint classic to SharePoint modern conversion and migration project, utilizing ShareGate for deep knowledge of the migration process and also creating custom web parts or applications to fulfill the business needs.
- Implemented, enhanced, and administered the Power Platform global COE (Center of Excellence).

### Trainee Software Developer, Ingram Micro, Mumbai

OCTOBER 2020 – JUNE 2021

- Learned and adapted SharePoint architecture to support business needs and enhance productivity.
- Through my expertise in SharePoint, I have designed and implemented custom solutions that have improved collaboration, document management, and workflow automation for organizations.
- Gained hands-on experience with Power Platform tools including Power Apps, Power Automate, and Power BI, using them to develop and automate business processes and also converted SharePoint designer workflows into Modern MS Power automate flows.
- Also working with the Operations team, I have utilized my in-depth knowledge of the global ticketing tool Service Now to track and manage support requests, troubleshoot issues, and report on progress.

## Education

### Bachelors Degree in Computer Engineering, Terna Engineering College, Navi Mumbai

JUNE 2017 – MAY 2020

- Gained experience in software design, testing, and quality assurance, as well as project management and team collaboration.
- Completed projects involving the development of web-based applications such as "Fantasy sports", and "Stock market prediction using ML".

### Diploma in Computer Engineering, NES Polytechnic, Mumbai

JUNE 2014 – APRIL 2017

- Completed post-SSC diploma specializing in Computer engineering with First class distinction grades.
- Participated in projects involving the design and development of software applications, computer systems, and network infrastructure.

### SSC, AFAC English School, Mumbai

JUNE 2013 – APRIL 2014

- Completed Secondary School Certificate with First class grades.
- Achieved excellent grades in SSC exams, demonstrating proficiency in academic skills such as critical thinking, problem-solving, and effective communication
